

Sisalation®

Sisalation® has been manufactured in Australia for over 50 years. During which time it has been used in the construction and insulation of millions of Australian homes and thousands of our most architecturally significant public and private buildings.

This experience and our intimate product knowledge is what sets Sisalation® apart from the rest. So that when you purchase Sisalation® not only are you purchasing The Original and The Best™ in reflective foil laminate insulation but you're also assured every one of our products has been fine tuned precisely for its stated application.

Of course there are many different types of Sisalation® each expertly designed for a specific end use application whether it is to be used for sarking under a new tiled roof, wall wrap on a new home or extension or facing foil in air conditioning ducts.

No other brand of reflective foil laminate insulation can match Sisalation's® over 50 year track record of high quality Australian manufacturing and its unparalleled reputation for excellence, quality, customer service and innovation.

Quite simply, Sisalation® is The Original and The Best™ in reflective foil laminate insulation.

SISALATION®

The Original and The Best

MULTI PURPOSE

PRODUCT GUIDE

The Sisalation® Multi Purpose Range

All Sisalation® products in the Multi Purpose End Use Category™ are recommended for installation in a variety of stated product specific applications following rigorous testing of their individual performance characteristics and superior quality features in these applications.

Sisalation® Multi Purpose Light Duty (439)

Sisalation® Multi Purpose Light Duty (439) is suited to applications where good all round strength, durability and ease of installation are required. It is ideally suited for application under metal roofs, in walls behind cladding in residential and commercial buildings under normal conditions, or for many applications such as bushfire protection for windows or protecting commercial seedling crops.

Sisalation® Multi Purpose Light Duty (438)

Sisalation® Multi Purpose Light Duty (438) is suited to applications where a combination of ease of handling together with reasonable strength and durability are required. It is primarily suited for application as wall insulation behind cladding but may also be installed under metal roofs for residential and commercial buildings where an economical light weight product is acceptable.

MULTI PURPOSE

The Sisalation® MULTI PURPOSE product range can be summarised as follows:

Duty	Product Title	Size	m ² per roll
Light	Sisalation® Multi Purpose Light Duty (439)	1350mm x20m	27
		1350mm x60m	81
Light	Sisalation® Multi Purpose Light Duty (438)	1350mm x20m	27
		1350mm x60m	81

*Other roll sizes available on application

Benefits of Sisalation®

Insulation All products in the Sisalation® Multi Purpose End Use Category™ are tested in accordance with AS4200.1 and proven to provide significant lifelong thermal insulation benefits.

Protection Sisalation® is the essential barrier to the elements for any building – providing protection against elements such as wind, dust, rain and condensation.

Environmental Benefits Every product in the Sisalation® Multi Purpose End Use Category™ has been proven not to contain any ozone layer depleting substances.

Quality Every product in the Sisalation® Multi Purpose End Use Category™ is manufactured in Australia under an ISO 9001 Certified Quality Management System.

Installation

All Sisalation® products in the Multi Purpose End Use Category™ are easy to install.

When used as sarking, all products in the Sisalation® Multi Purpose End Use Category™ should be installed in accordance with AS/NZS4200.2 “Installation requirements for Pliable Building Membranes”. To provide optimum insulation values, a minimum air space of 40mm is required adjacent to the reflective foil face.

Suitability

The Sisalation® Multi Purpose End Use Category™ is all about delivering a range of functional, expertly designed products that still provide superior flexibility in how they can be applied to any project or construction job. No other range of reflective foil laminate insulation products can provide this flexibility and performance.

Australian Standards

All products in the Sisalation® Multi Purpose End Use Category™ far exceed the minimum performance standards for wall wrap & sarking products set out in Australian Standard AS/NZS4200.1 “Pliable building membranes and underlays”. They also perform exceptionally in achieving a Low flammability index (not greater than 5) when tested to AS1530.2 making them suitable for use in bushfire prone areas of Australia and meeting all building code requirements.
